Academic Profile

Recently graduated Software Engineer from ESPRIT, Valedictorian (Ranked 2nd/42, GPA: 16.16/20). Versatile profile skilled in full-stack software engineering, data science, Cloud/DevOps architectures, and system security. Candidate for Master 2 degrees in France for the 2026-2027 academic year. Public projects documented on GitHub and portfolio.

Education

National Engineering Degree in Computer Science *ESPRIT (Private Higher School of Engineering and Technology)* 2021 – 2026
Valedictorian (Ranked 2nd/42) — GPA: 16.16/20 (Highest Honors) — Specialisation: ERP & BI
Scientific Baccalaureate *Al Wafa High School, Ariana* 2020 – 2021

Academic Internships

Software Engineer Intern (Graduation Project) — Data Engineering & BI *BIAT IT — La Goulette, Tunis* 02/2026 – 07/2026

- Full-stack KPI monitoring system for card payments: Power BI dashboards and automated alerts.
- Star-schema data warehouse and machine learning anomaly detection across **over one million transactions**.
- LLM-powered RAG chatbot to query indicators in natural language.
- **Tools:** Python, SQL Server, Scikit-learn, Flask, Angular, Power BI, DAX, Docker, Git.
- [github.com/idrissjemli/biat-monitoring](#) — public containerised project.

Software Engineering Intern — Full-Stack Development & BI *STEG — Tunis* 06/2025 – 08/2025

- Web application for intern management: CRUD, secure bcrypt authentication, change history, and REST API.
- Power BI dashboards for decision-making reporting and workforce monitoring.
- **Tools:** Flask, Angular, SQL Server, Power BI, bcrypt.

Technical Intern — Data & Business Analytics *BIAT Insurance — Lac 2, Tunis* 06/2024 – 07/2024

- Multi-source data integration, business data cleansing, performance analysis, and trend visualisation.

Company Immersion Internship *BIAT Insurance — Lac 2, Tunis* 07/2022 – 08/2022

- Business immersion: insurance processes, contract structure, and claims processing.

Extracurricular Professional Experience

Client Data Administrator & Advisor *California Gym Tunisia — La Soukra, Tunis* 09/2025 – 02/2026

- Administration, structuring, and updating of member contractual and financial databases.

Academic & Personal Projects (GitHub)

ETL Pipeline & Data Quality *SSIS, SQL Server, Data Warehouse*

- Complete ETL pipeline: cleansing rules, quality control, and automated separation of business rejects and errors.
- [github.com/idrissjemli/ssis-etl-qualite-donnees](#)

Distributed Large-Scale Data Processing *Hadoop, MapReduce, Java, Linux*

- Implementation of MapReduce algorithms and administration of a Linux cluster for high-volume data processing.

Full-Stack Web Applications & Secure Architecture *Symfony, Next.js / React, Django, MySQL*

- Design of secure REST APIs, database modeling, and role-based access control (RBAC) management.

Technical Skills

- **Software Engineering & Dev:** Python, Java, C++, Symfony, Angular, React / Next.js, Django, Flask, REST API, OOP.
- **Data, BI & AI:** SQL Server, T-SQL, ETL (SSIS, Talend), Data Warehouse, SAP BW, Power BI, Scikit-learn, LLM/RAG.
- **Cloud & DevOps:** Docker, Git/GitHub, CI/CD, Linux/Unix, AWS Cloud Foundations, Distributed Computing (Hadoop).
- **Networking & Security:** Cisco CCNA v7 (Routing & Switching), IT Security, Authentication (bcrypt), Access Control.

Certifications, Languages & Interests

Certifications:

- [Associate Data Analyst & SQL Associate](#) — DataCamp
- [AWS Cloud Foundations](#) — AWS Academy
- [CCNAv7 & Intro to Cybersecurity](#) — Cisco
- [Graph Developer Associate](#) — Apollo GraphQL
- [Hashgraph Developer](#) & AI for Everyone

Languages:

- **French:** C1 (TCF TP: 545/699)
- **English:** B2
- **Arabic:** Native

Interests:

- Fitness (weight training), motorcycle enthusiast, video games.
